

QIP cum CEP Short-Term Course

Joyous Leadership & Consciousness Elevation

18 May – 22 May 2020

National Resource Centre for Value Education in Engineering
IIT Delhi, Hauz Khas, New Delhi-110016

Course Synopsis

This interdisciplinary learning experience “*Joyous Leadership and Consciousness Elevation*” is for participants who wish to apply the multiplier effect arising out of integrating leadership skills and consciousness elevation in their workplace as well as in society. Whatever its mode – consciousness elevation or inner work includes various practices such as guided reflection, journaling, vision questing, creative play, or retreat into stillness and being in natural beauty, to name but a few possibilities.

“This course enables participants to powerfully apply ‘inner work’ reflective practices that focus on individual contemplation and investment in personal growth and transformation”.

The possibilities in Consciousness Elevation or Inner Work is much more than the contemplative life or personal growth for its own sake. Its purpose is to prepare leaders and change makers who can nurture and engage in multi-stakeholder collaborative action to address pressing social and impact issues and also sustain their commitment and cultivate mutual trust in the face of inevitable obstacles to collaboration. Participants would learn how individuals and organisations, through consciousness elevation, have collaborated and co-created to address issues using the power of impersonal vision, harmony and cooperation. The short term course is designed for academicians and researchers, corporate managers and social entrepreneurs and change makers.

Faculty Members and Resource Persons associated with the delivery of this short-term course have rich experience in joyous leadership, consciousness elevation and in creating impact through transdisciplinary cross-cultural partnerships. Course mentors would be happy to support the participants to carry forward course outcomes into tangible interventions in the domain of impact interventions that add value to society at large.

About IIT Delhi :
